Freedom for Nezam Hout

"I call on the Iranian regime to release all arbitrarily arrested and imprisoned people, especially Nezam Hout."

Back in December, Bundestag member Dagmar Schmidt campaigned for the release of imprisoned Iranian Nezam Hout. Since his arrest in October 2022, no new information about Hout's location and condition is known. In another letter to the Iranian ambassador, Dagmar Schmidt therefore expresses concerns and urges for clarification.

"Every person has a right to an independent trial and legal assistance. This is why I appeal to the Iranian ambassador again to work for the release and life of Nezam Hout and to inform me about the developments. The Iranian regime must finally release all arbitrarily imprisoned people." Dagmar Schmidt affirms.

As a Baluch, Nezam Hout belongs to a minority that is particularly threatened by reprisals. With the political partnership for Nezam Hout, who is threatened by the death penalty, Dagmar Schmidt wants to draw attention to the situation of this and other minorities.
